MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Army Diagnostic Improvement Program (ADIP) Compliance

1. References:

a. Memorandum, Assistant Secretary of the Army, Research Development and Acquisition, 29 Jan 98, subject: Horizontal Technology Integration Participation at the Army Systems Acquisition Review Council (ASARC).

b. Memorandum, Vice Chief of Staff Army, 30 Apr 98, subject: Accelerated Application of Embedded Diagnostics.

c. Memorandum, Assistant Secretary of the Army, Research Development and Acquisition, 8 Jun 98, subject: Horizontal Technology Integration and the Accelerated Application of Embedded Diagnostics on Army Equipment.

d. Memorandum, Commander, TRADOC, 8 Jun 98, subject: Accelerated Application of Embedded Diagnostics.

e. ADIP Operational Requirements Document (ORD), 17 Jul 00, Catalog of approved requirement documents (CARDS) number 16096.

f. DODD 5000.1, Defense Acquisition, 15 Mar 96.

g. TRADOC PAM 71-9, Force Development Requirements Determination, 5 Nov 99.

2. TRADOC System Managers and Combat Developers will ensure compliance with ADIP. All proponents must update ORDs to incorporate or comply with ADIP for all systems prior to milestone III.

3. Army systems will be designed for testability and embedded diagnostics/prognostics in a tiered approach--critical major combat systems through equipment not requiring embedded diagnostics/prognostics. TRADOC PAM 71-9, Force Development Requirements Determination, contains guidance on determining a system's diagnostic requirements.
